Thirty-Three Bodies Recovered

· / Altogether.

BRUSSELS, March 12. There has been little, if any abatement of the excitement in and about. Charleroi, near which place the appailing explosion occurred yesterday morning in Anderluce colliery: All night long hundreds of meh, women and oblidien have kept their dreary watch at the pit mouth, hoping for the best, yet almost knowing their hope; was without reason. Many pittable scenes have been witnessed as wives and children have recognized among the bodies recovered, some dear one, distorted and t luckenind by the sheet of scorching flame that had enveloped them.

the sheet of scorching fiame that had enveloped them.

The fire, caused by the explosion, is still burning in the lower gallery where the accident occurred. The shock of the explosion detached huge masses of rock and earth, and the gulleries are so blicked with debris it is impossible to approach nearer than one hundred yards to the place where

were working; besides the dirt and rock, carcasses of forty horses book the approach to lower gallery and these will have to be cut up before rescuers can proceed any further in the direction of the gallery where the hodies that have been removed were covered with thick black dust which in some that these had been blown deep into the skin. Many of the faces were entirely unrecognizable. The fact that some, if not all, of the women employed in the mine have met (their death by the explosion, will afford an almost unanswerable argument for those who

in underground employments. Among the bodies recovered is that of a fourteen-year-old girl. The blackened features are swellen almost beyond all semblace to humainity. It has been ascertained that 270 persons were working in the inne at the time of the explosion.

Mining experts acqualuted with the Auderlues workings, say every person who was working in the lewer gallery must be dead. A few are expected to be rescued alive from the upper gallery which is filled with deadly gasses. Altogether 33 bodies have been recovered.

## AYER POISONING CASE.

Believed that Wilson Killed His Father Believed that Wilson Edd-ed His Father Ayen, Mass., March 12. Coroner Hartwell completed his autopsy lutthe Wilson poisoning case here at 4 c'clock this afternoon. He seat three boules containing the stomach and vital organs to Prof. Wood of Harvard, for analysis. He would not say death resulted from poisoning, neither would be say that death was due to natural causes, and declined togive Undertaker Wright a burial certificate until he heard from Prof. Wood. Egwus assisted

fact, with others, led him to call for Pro-fessor Wood's analysis.

State Detective Whitney and Deputy Sheriff Sherman, who have the case in hand, made a thorough search of the premises this afternoon for evidence against the accused, with what result they declined to say. Wilson will be brought from Boston, where he is now held, Monday morning. His mother will be too ill to appear, and the case will probably be continued, as neither party, will be ready then. While a great deal of evidence is heresay and throumstantial,

Elaborate Report to Accompany Fire in a Seven Story New York House Non-Concurs in Senate House Appropriation Bill.

Has Been Remarkable. Appropriation for the Current

Fiscal Year Not Yet Exhausted.

WASHINGTON, March 13. Mr. Herbert, of Alabama, chairman of the House Com-mittee on Naval Affairs, has prepared an elaborate report to accompany the mayal

Patriotic Memorials of the Past.

Speaking of the "Increase of the navy," unfer which head the bill appropriates some milligas less thra the act for the current year, the report says: The appropriations or his purpose for each fiscal year from 1337 to and including the current year, the genter than the event. current year, are greater than the exper ditures for the reason that in no one of these years has the progress in shi building or in the manufacture of armo bu kling or in the manufacture of armoror guns been as rapid as the authorities had reason to hoje for and expect.

The report states that the authorization of ships has not been unreasonable and the results of our efforts to establish plants for building ships for afmor plates, gun forgings and assembling of guns, has been, considering the results attained, extremely gratifying. The committee is unmimously of the opinion that every dollar should be appropriated necessary to complete vesse's heretofore nuthorized it also believes it s until be the

Settled Policy of Congress would not let them. Ashinger finished to authorize the construction of one or more new vessels at each registarsession, until we have a considerably larger number of lighting ships than we will have when those author zed are completed.

The committee finisk that eight or nine battleships in addition to be three already authorized, would give us a sufficient navy.

The majority of the committee recommends the author zeition of one strong and swift commerce distroyer of the type of the New York.

day Its contents and makeup were of
such a character as to render it unworthy of notice were it not for the fact that it deliberately and wilfully placed a large number of our prominent citizens in a false light regarding their position on the railroad question publishing a long list of names of persons as opposed to the road and even putting words into the mouths of some of them as completely devoid of truth and as contrary to the real ideas of the men quoted as possible

From the number of persons whose names were thus used in that dodger who have come to us to request us to make a

denial of the statements attributed to

them we have no hesitation in saving

that most if not all the names published

were written down by the unscrupulous person who got up the sheet without any pretense of seeing the persons whose names he used or asking them either how they stood or for authority to quote them Among others who called upon us was our esteemed fellow-c t zen ex Alderman George i Aliamba who is justed as saying. We cannot let these sch ming speculators have our road. He most positively denies the use of any such lan guage or even of having held a conver sation with any such person regarding the road or his position thereon

Among others who repudiate and deny the false position in whi hither have been placed are Mesers John if Bowler ( corge Wheelwright & B Farnhan George H Fox C H Savage Dunie Formuld and others all of whom will vote for he lease. We have taker not met ook up the persons whose names have been so used but only give such as I vosta ed to us their position but from what we have heard otherwise we have no le tation in saying that a large proper or of the number would dony that the hid ever authorized such use of their name

The Great American Hog Is welcome abroad once

more, and abroad he may go. As long as Lard was a requisite in every kitchen, the Great American Hog was highly esteemed at home; but now that mocern science has introduced

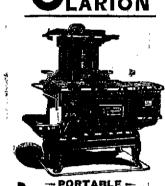

30770LEM the new vegetable substitute for Lard, poor Piggy's occupation's gone.

The reason for this is threefold. COTTOLENE is cleaner, healthier and much more economical. A trial has convinced thousands as to this. It will convince any "convincable" person. Will you be convinced? At leading grocers.
